

# HIV & ADOLESCENCE

29-30 SEPTEMBER  
& 6-7 OCTOBER

ADOLESCENTS LIVING OUR  
BEST LIVES: HIV AND BEYOND

2021

# Program

## Dear Delegates,

We would like to warmly welcome you to the **International Workshop on HIV & Adolescence 2021**. This is the 5th edition of this unique workshop and even though we are only able to meet virtually, it is our pleasure to bring you all together once more.

The theme of this year's workshop is: Adolescents Living Our Best Lives: HIV and Beyond . Have you recently heard a young person talk about "living their best life"? We are keen to explore this during this year's workshop. In previous years, we have focused on several areas that speak to the HIV-specific needs of adolescents living with and affected by HIV. This year we will aim to look at the fuller lives of adolescents, including their mental health, experiences of violence, the social and economic contexts they grapple with, how they use digital technology to navigate the world, and how they take control of their own health and lives. All of these topics impact on the ability of adolescents to lead healthy and fulfilled lives.

Earlier this year, we lost the Founder of the HIV & Adolescence workshop, Prof. Charles Boucher. The workshop started with Charles who, filled with inspiration and urgency about the plight and potential of young people, nurtured his vision of a specific workshop for adolescents to engage with young people, advocates, civil society, policy makers, implementers, and researchers in order to change the statistics regarding young people and their vulnerability to HIV globally. Of course, there was no refusing Charles.... and true to form he followed through, and here we are - in our 5th year with a workshop driven truly by young people with 12 youth reference group members and over 300 participants joining from all over the world. This year, we will have 8 regular sessions, a debate, 5 parallel skill-building sessions, and 3 live poster viewing sessions. We are delighted to say that 178 abstracts were submitted out of which 15 were selected for oral presentations and 117 for accepted as posters.

Join us for these four virtual workshop days as we hear from young people and experts and learn more about tried and tested initiatives and strategies that support adolescents to live their healthiest, happiest and best lives! We look forward to welcoming you to this virtual workshop platform.

Sincerely,

2021 Workshop Chairs

### **Tanaka Chirombo**

Global Network of  
Young People Living  
with HIV (Y+ Global),  
Malawi  
*Adolescent Chair*

### **Izukanji Sikazwe**

Centre for Infectious  
Disease Research,  
Zambia  
*Regional Chair*

### **Alice Armstrong**

UNICEF Eastern and  
Southern Africa Region  
Office, Kenya  
*Workshop Co-Chair*

### **Linda-Gail Bekker**

Desmond Tutu Health  
Foundation / University  
of Cape Town (UCT),  
South Africa  
*Workshop Co-Chair*

## Abstracts

Accepted abstracts are published in **Reviews in Antiviral Therapy & Infectious Diseases, Volume 2021\_9**.

## Certificate of attendance

Certificates of attendance will be sent by e-mail in the week following the workshop after completion of the post-workshop survey.

## Feedback

Your feedback is very valuable to us and enables us to further improve this conference. After each session a short questionnaire will pop-up and we would like ask you to take a minute to complete it. After the workshop, a survey will be send to you via email, with other questions to improve this workshop.

## Group Picture

We ask you all to take a photo of yourself and send it to the HIV & Adolescence secretariat at [magda@amededu.com](mailto:magda@amededu.com). We will stitch it all together and send out the finished virtual group photo at the end of the workshop.

## Instagram

Follow us on Instagram @HIVAdolescence to stay up-to-date on the workshop! We hope to see you there!

## Meeting Hub

The Meeting Hub allows you to connect and communicate with other attendees. Once you have located an attendee you want to connect with, click the Connect button. Once the other attendee accepts your request, you can choose to interact by starting a live chat or live video call. You can also schedule a meeting at a later time, send messages and take notes. Contact information for all attendees you have connected with will be included when you export contacts.

## Notes

You will be able to take notes during the virtual workshop. Any notes that you take throughout the event can be exported by selecting the Export icon in the top right of the screen near your Profile image.

## OnAIR

OnAIR is the virtual workshop platform being used for HIV & Adolescence 2021. A video tutorial on how to use the workshop portal can be found [here](#)

## Poster Sessions

During the virtual workshop all accepted posters are displayed in the Poster Gallery. The Poster Gallery is always open for you.

The poster presenters are available to interact with you at the following timeslots

**29 September at 16:45**

**30 September at 17:00**

**6 October at 17:00**

You can visit the posters just like if it was a face-to-face workshop. Please make sure to make use of this opportunity and learn more about their important findings.

## Social Media

We encourage you to post news about HIV & Adolescence to your social media accounts and tweet about HIV & Adolescence as often as you like during the workshop. You can either post your own tweets to your followers using the hashtag #HIVAdolescence or #YouthInAction or retweet a message through the official @Academic\_MedEdu account.

## Technical Team

Should you encounter any technical problems, please contact us at [rikke.rode@amededu.com](mailto:rikke.rode@amededu.com)

## Time Zones

Times are in Central Africa Time (CAT) / South African Standard Time (SAST). If you need to convert the times to your timezone, this website might be of interest to you: <https://www.worldtimebuddy.com/>. You will be able to watch the presentations on the workshop portal until 3 weeks after the workshop.

## Presentations and Webcasts

**ame** Webcasts of the presentations along with the PDF presentations will be available on [www.AcademicMedicalEducation.com](http://www.AcademicMedicalEducation.com) 3 weeks after the meeting.

Disclaimer: This workshop aims to offer participants the opportunity to share information. The Virology Education, cannot accept any liability for the scientific content of the sessions or for any claims which may result from the use of information or publications from this workshop. Virology Education disclaim all liability for injuries or losses of whatever nature incurred by individuals attending the conference.
