As the Chairs of the 13th edition of the International Workshop on HIV & Aging, we are excited to welcome you to the workshop. The mission of this workshop is to provide a much-needed platform to exclusively focus on the integration of the disparate fields of geriatrics, internal medicine, HIV biology, pharmacology, psychology, and numerous medical subspecialties in an interactive setting. We provide a platform for the presentation and discussion of the latest biological knowledge and treatment strategies that may improve the future of persons aging with HIV. As people living with HIV reach lifespans similar to those of people living without HIV, our mission is to help achieve an equivalent healthspan.

As people living with HIV age, they often experience an excess of morbidity and mortality, including earlier onset of aging complications such as neurocognitive impairment, cardiovascular disease, kidney disease, and frailty. It is vital to understand why this is. To this end, the workshop has an intimate size and multidisciplinary program intended to promote transdisciplinary interactions, which have led to many long-lasting and productive collaborations. The workshop also prioritizes opportunities for trainees and junior investigators to present their research, network, and learn from experts in many fields.

This year, we are excited that the workshop will include a highly diverse team of basic and clinical scientists, clinicians, trainees, and community members. This year's program will delve into basic biologic aging (for example, mechanisms of inflammation) and clinical challenges (for example, neurocognitive and mental health difficulties, specialized care of aging persons living with HIV). We have a tremendous group of speakers with a wealth of knowledge on both Aging and HIV. Through plenary and abstract presentations, parallel session poster tours, fast paced lightning poster presentations, and panel discussions, the 13th Workshop is certain to be an excellent opportunity for learning. We thank you for joining us!

Abstracts

Accepted abstracts are published in **Reviews in Antiviral Therapy & Infectious Diseases, Volume 2022_11**.

Certificate of Attendance

Your certificate of attendance with your CME credits will be sent to you upon completion of the post-meeting survey.

Feedback

Your feedback is very valuable to us and enables us to further improve this workshop. After each session, a short questionnaire will pop-up and we would like to ask you to take a minute to complete it. After the workshop, a survey will be sent to you via email, with other questions to improve this workshop.

Group picture

We ask you all to take a photo of yourself watching the workshop and send it to the workshop secretariat at Christina.moustakaki@amededu.com before 10am EDT on Friday, 14 October. We will collate the images and send out the finished virtual group photo at the end of the workshop.

Networking

The Meeting Hub allows you to connect and communicate with other attendees. Once you have located an attendee you want to connect with, click the Connect button. Once the other attendee accepts your request, you can choose to interact by starting a live chat or live video call. You can also schedule a meeting at a later time, send messages and take notes. Contact information for all attendees you have connected with will be included when you export contacts.

Notes

You will be able to take notes during the virtual workshop. Any notes that you take throughout the event can be exported by selecting the Export icon in the top right of the screen near your profile image.

Virtual Workshop Portal

OnAIR is the virtual workshop platform being used for HIV & Aging 2022. A video tutorial on how to use the Workshop Portal can be found [here](#).

To log in, please follow this link and use the login credentials you have received per email. The Virtual Portal works best with Google Chrome. It may not be compatible with your mobile phone or tablet. To access the sessions, we advise you to use your computer.

Social Media

We encourage you to post news about **#HIVAGING** to your social media accounts and tweet about **#HIVAGING** as often as you like during the workshop. You can either post your own tweet to your followers using the hashtag **#HIVAGING** or retweet a message through the official @Academic_MedEdu account.

Posters and Guided Poster Tours

During the virtual workshop all accepted posters are displayed in the Poster Gallery. The Poster Gallery is always open for you. The Guided Poster Tours will be held as parallel sessions on Thursday, 13 October, at the conclusion of the plenary program.

Presentations and Webcasts

ame Videos, abstracts, and other materials will be made available on www.AcademicMedicalEducation.com 3 weeks after the meeting. You will be able to watch the presentations on the Virtual Workshop Portal until this time.

The International Workshop on HIV & Aging 2022 Utrecht (Livestream), Netherlands, 13/10/2022-14/10/2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **4 European CME credits (ECMEC®s)**. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.
