<b>Acknowledgments</b>	14
<b>Notes</b>	15

HIV clinical management has made great strides in recent years and transformed this life-threatening condition into a largely manageable chronic disease. But there remains a substantial population of patients in which standard first- and second-line regimens are not an option.

Patients who have failed multiple regimens and have limited treatment options due to multi-drug resistant HIV strains can often not be effectively treated with currently available drugs.

Furthermore, drug-drug interactions and accumulating toxicities can also often limit treatment options.

Key to the successful treatment of these patients with limited treatment options, is providing up-to-date knowledge on how to properly identify them in the clinic, how to treat comorbidities, and avoid potential drug-drug interactions. Importantly, novel drugs with new mechanisms of action are now available and are crucial for the optional care of this population.

The 'Managing HIV Patients with Limited Treatment Options' program aims to provide you with up-to-date information, lively discussion on the clinical considerations, and provide guidance for the clinical management of this challenging group of patients.

## Learning Objectives

After participating in the Managing HIV Patients With Limited Treatment Options Symposium, participants will have:

- Improved knowledge of the definition of treatment-experienced people living with HIV and the challenges of their care;
- Acquired tools and understanding on how best to identify the treatment-experienced HIV patient in their clinical practice;
- Greater understanding of the new treatment options available for these patients, including recently presented clinical trials;
- Learned how best to integrate these new drugs into optimal combination regimens for treatment-experienced patients, considering their local country setting; and
- Improved their skills in managing drug-drug interactions and toxicities in these treatment-experienced patients.

## Onsite Team

**Brenda Evan Uzoma**  
Project Manager  
[Brenda.Evan@amededu.com](mailto:Brenda.Evan@amededu.com)

**Karin Siebelt**  
Senior Project Manager  
[Karin.Siebelt@amededu.com](mailto:Karin.Siebelt@amededu.com)

**Olivia Zhang**  
Junior Project Manager  
[Olivia.Zhang@amededu.com](mailto:Olivia.Zhang@amededu.com)

## Badge Policy

All registered delegates are provided with an identity badge. Please wear it at all times to ensure admission to the meeting.

## Certificate of Attendance

A certificate of attendance will be sent by e-mail following the meeting.

## Code of Conduct

All individuals are required to observe our Code of Conduct. We cannot tolerate any form of discrimination, harassment, disrespect, or the marginalization of those involved in our programs. Please report any incidents to VE and AME via [info@amededu.com](mailto:info@amededu.com) or to one of our onsite personnel. Any participant who is found to have exhibited any inappropriate conduct or behavior against others may be removed from the program.

View in full: [academicmedicaleducation.com/our-commitment-diversity-and-inclusion](https://academicmedicaleducation.com/our-commitment-diversity-and-inclusion)

## Language

The official language of the meeting is English.

## Symposium Secretariat

The Symposium Secretariat is located at the registration desk in the pre-function area of the room. It is open throughout the symposium to address all your questions concerning logistics.

## Symposium Website

More information regarding the program and logistics of the symposium can be found on our website at [academicmedicaleducation.com/meeting/managing-hiv-patients-limited-treatment-options-2022](https://academicmedicaleducation.com/meeting/managing-hiv-patients-limited-treatment-options-2022).

## Enduring Materials

Webcasts of the **ame** presentations, along with the PDF presentations will be available on [www.AcademicMedicalEducation.com](https://www.AcademicMedicalEducation.com) shortly after the meeting, granted we have received the speakers' permission.

## Feedback Form

Your feedback is very valuable and enables us to further improve this meeting. A printed flyer containing the post-meeting survey/link to the post-meeting survey will be distributed during the workshop. Additionally, the post-meeting survey will be sent out to you following the meeting.

## Group Photo

Instructions will be provided by the session chair. Please follow further instructions from the on-site team.

## Social Media

We encourage you to post news about the Managing HIV Patients With Limited Treatment Options Symposium to your social media accounts and tweet about the Managing HIV Patients With Limited Treatment Options Symposium as often as you like during the workshop. You can post your own tweet to your followers using the hashtags #MHPLTGlasgow.

## Venue

The meeting is held at Glasgow Marriott Hotel, Glasgow.

## Wi-Fi

Wi-Fi will be available during the entire meeting. Please check with our staff for login details.

**Disclaimer:** This conference aims to offer participants the opportunity to share information. Virology Education cannot accept any liability for the scientific content of the sessions or for any claims which may result from the use of information or publications from this workshop. Virology Education disclaim all liability for injuries or losses of whatever nature incurred by individuals attending the conference.

Saturday, **22 October 2022**

7:00 PM	<b>Welcome by the Program Chair</b> <b>Jonathan Schapiro, MD</b> National Hemophilia Center, Sheba Medical Center, Israel
<b>Session 1</b> Program Chairs: <b>Laura Waters &amp; Miłosz Parczewski</b>	
7:03 PM	<b>Introduction and Goals</b> <b>Laura Waters, MD, FRCP</b> Central & North West London NHS Foundation Trust, United Kingdom <b>Miłosz Parczewski, MD, PhD</b> Pomeranian Medical University, Szczecin, Poland

9:25 PM	<b>Debate: People with Limited Treatment Options Need To Be Treated Only At Large Academic Centers</b>  <b>PRO:</b> <b>Anna Maria Geretti, MD, PhD, FRCPath</b> University of Rome, Italy / King's College London, United Kingdom  <b>CON:</b> <b>Jürgen Rockstroh, MD</b> University of Bonn, Germany
9:50 PM	<b>Clinical Case Presentation – Between the Rock and the Hard Place</b> <b>Saye Khoo, MD, PhD</b> Royal Liverpool University Hospital; University of Liverpool, United Kingdom
10:05 PM	<b>Discussion</b>
10:15 PM	<i>Closure of the Program</i>

**Managing HIV Patients with Limited Treatment Options 2022, Glasgow, United Kingdom, 22/10/2022** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 2 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at [www.ama-assn.org/education/earn-credit-participation-international-activities](http://www.ama-assn.org/education/earn-credit-participation-international-activities).

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

### **EACCME®credits**

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form.

An online survey will be sent out to all attendees at the end of the meeting. After completing the survey, a CME certificate will be sent to your registration email. If you have any questions regarding claiming CME credits, please contact [brenda.evan@amededu.com](mailto:brenda.evan@amededu.com). Please note that CME accreditation is only provided for delegates that attend the event livestream.

## WHO ARE WE?

Since 1998 and under the guidance of esteemed virologist Prof. Dr. Charles Boucher, Virology Education has been a driving force in the global medical community with the primary aim to further research and enable knowledge sharing. We specialize in medical programs in the fields of HIV, hepatitis, COVID-19, emerging viruses, NASH, liver disease, pharmacology, and oncology in a variety of learning formats that maintain a balance between educational content and networking.

Virology Education is proud to be a leading medical educator that supplies healthcare professionals with the tools needed to work effectively.

## OUR MISSION

Virology Education is committed to facilitating medical education to healthcare professionals in the fields of HIV, hepatitis, oncology, and more to develop these fields and support communities with continuing education. We strive to have a diverse and informed group of speakers and participants to enable knowledge-sharing and networking across various fields and disciplines. By including speakers and engaging participants from all ethnicities, ages, geographic locations, and genders, we aim to ensure that the knowledge shared in our programs is all-encompassing, meeting the wide-ranging needs of the global healthcare community.

## WHAT WE DO

Our services include:

- Identification of scientific, educational, and strategic needs
- Design and implementation of tailored programs
- Full scientific and logistical organization of face-to-face, hybrid, and virtual programs
- Development of educational materials
- Publication of peer-reviewed articles, meeting reports and abstracts
- Online education and online publication on [www.academicmedicaleducation.com](http://www.academicmedicaleducation.com)

## ACADEMIC MEDICAL EDUCATION

With a growing number of programs and participants, we identified a need to have all of our materials and programs in one user-friendly interface.

Academic Medical Education (AME) is a brand-new platform designed by Virology Education to be your first choice in finding the latest information in your medical field. Our 60+ yearly online, hybrid, and live programs – as well as the accompanying thousands of abstracts and posters presented throughout the year – represent the number-one resource for healthcare professionals across the globe to read, watch, and learn from experts on the most current and useful research.

## OUR QUALIFICATIONS

Virology Education and Academic Medical Education provide content-driven scientific and medical educational meetings in infectious disease.

We provide:

- Expertise in infectious diseases content management & program building
- A worldwide network of long-standing relationships with key opinion leaders in infectious diseases
- Customer-focused identification and assessment of scientific, educational, and strategic unmet needs and gaps
- Continuous program improvement by means of quality and impact evaluations through audience surveys

## WHAT DOES AME ONLINE PROVIDE?

- Complimentary and paid resources for healthcare professionals
- Accessible and applicable content, available 24/7 around the world
- An exclusive database of materials provided from our network of international experts
- Top-quality and CME-accredited courses developed with pre- and post-tests
- Scientific reports, abstracts, and E-posters from our international live meetings
- 1000+ hours of video content on topics including HIV, viral hepatitis, oncology

## Support

## SUPPORTER

The **Managing HIV Patients With Limited Treatment Options** symposium is supported by an independent educational grant from ViiV Healthcare.

ViiV Healthcare was not involved in the development of content or selection of faculty for this educational activity.
