Covid-19 vaccine rollout in Latin America

Countries with early rollout largely mirror those with vaccine production capacity

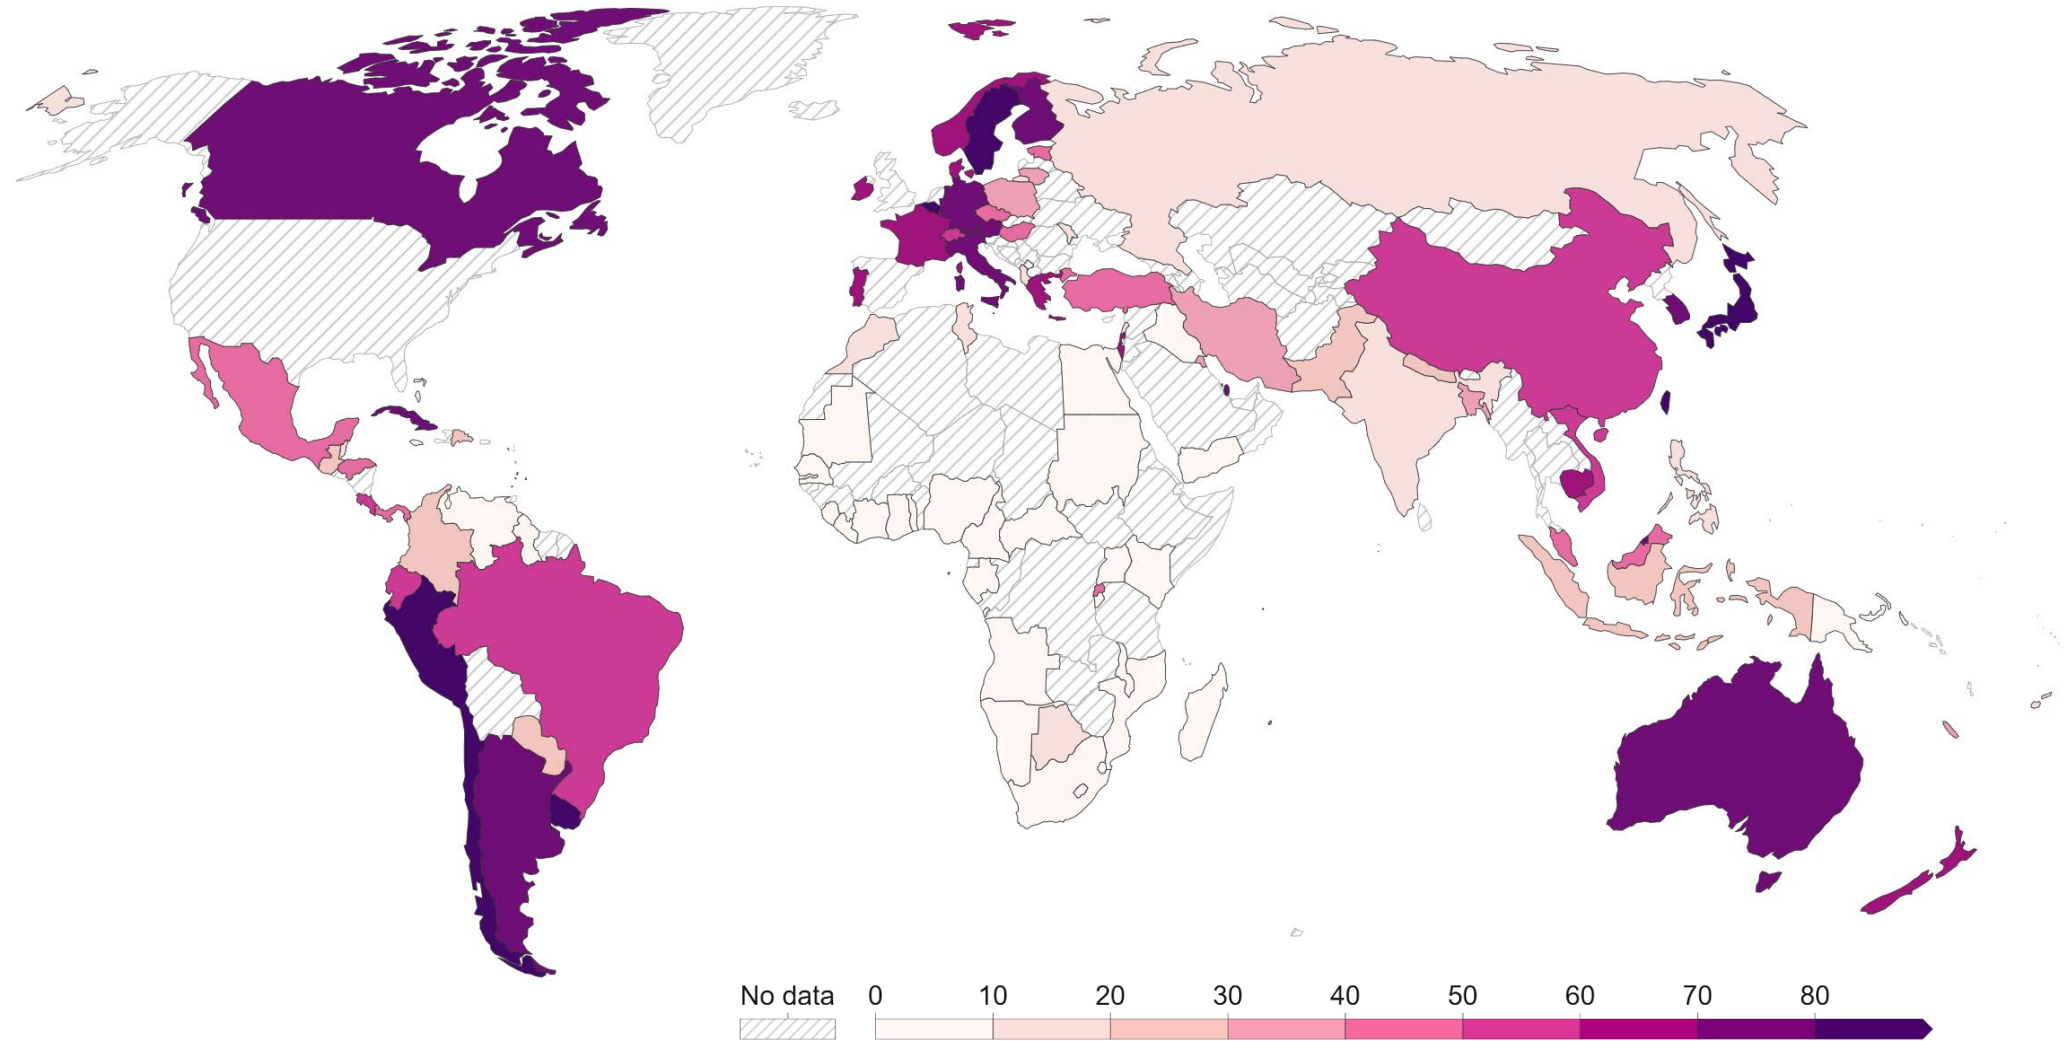

Covid-19 vaccine rollout in Latin America, 2022

Percentage of people who completed the initial COVID-19 vaccination protocol

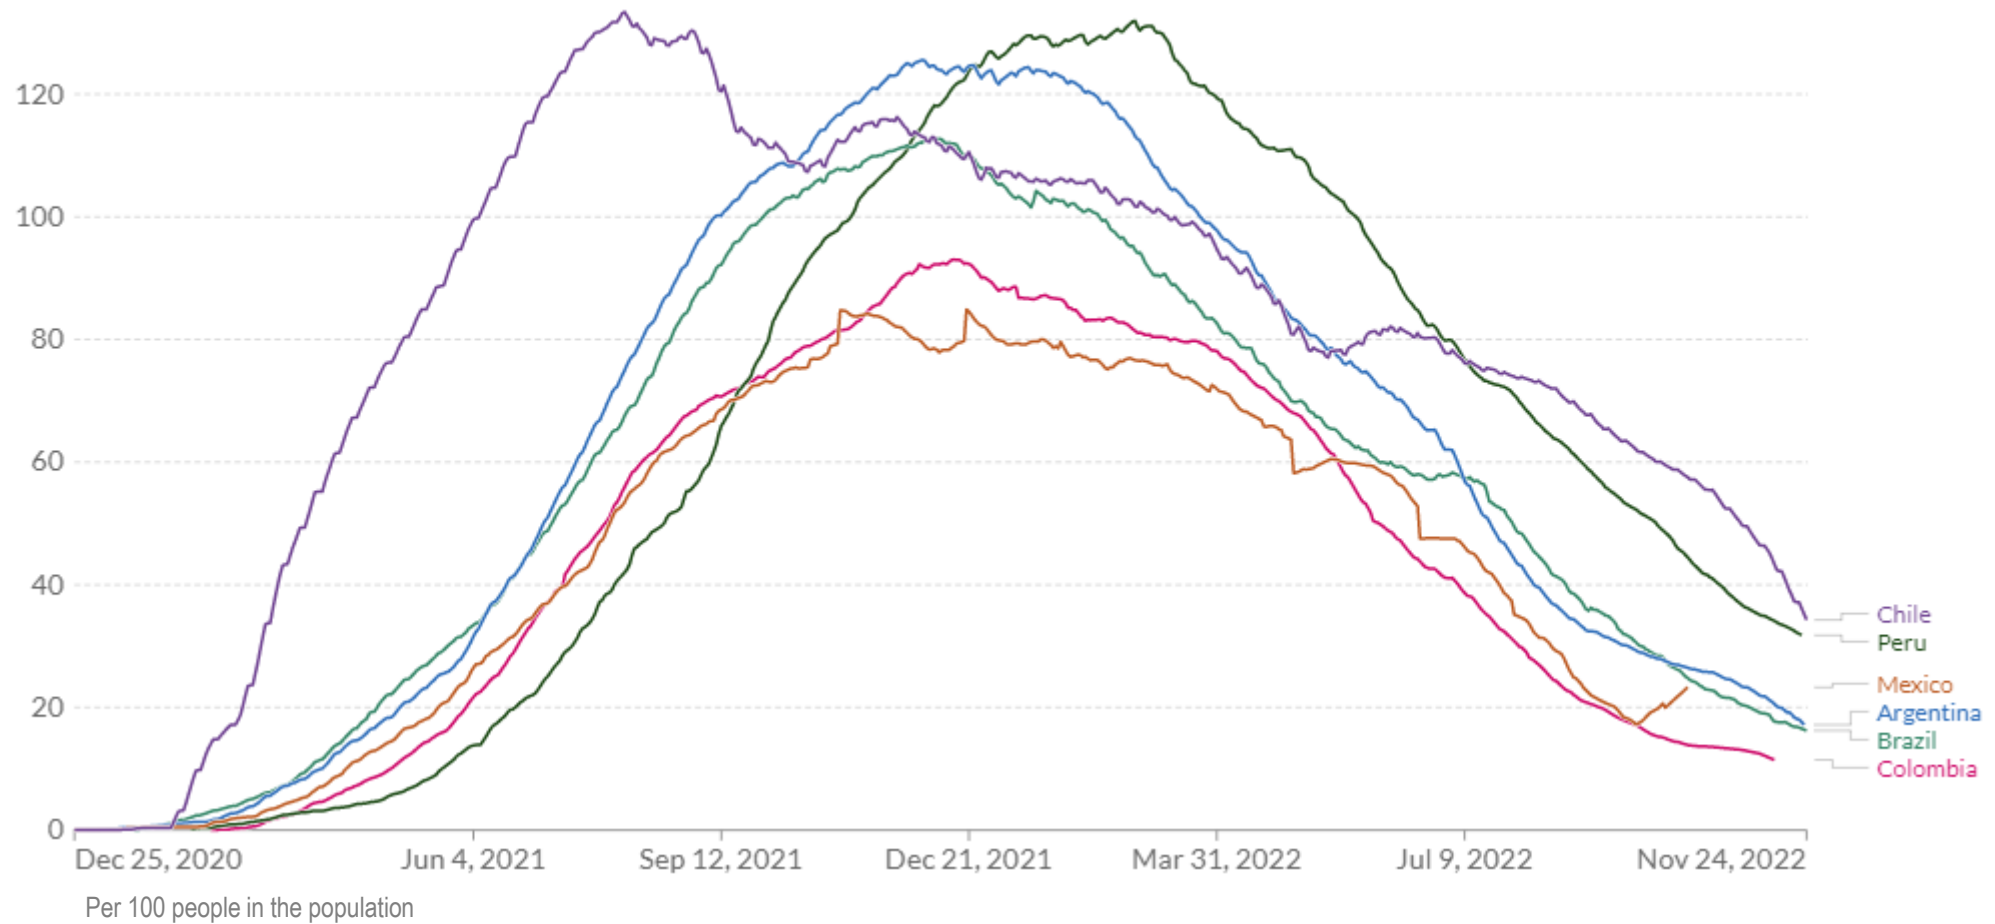

Covid-19 vaccine rollout in Latin America, 2022

Covid-19 vaccine boosters administered per 100 people

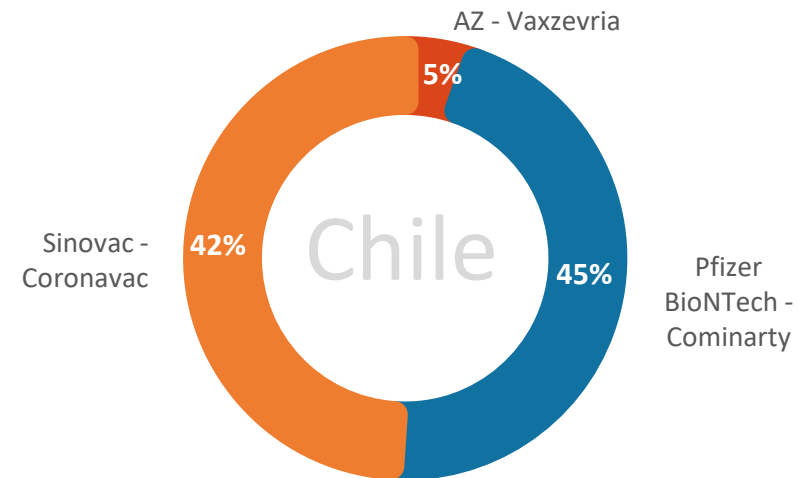

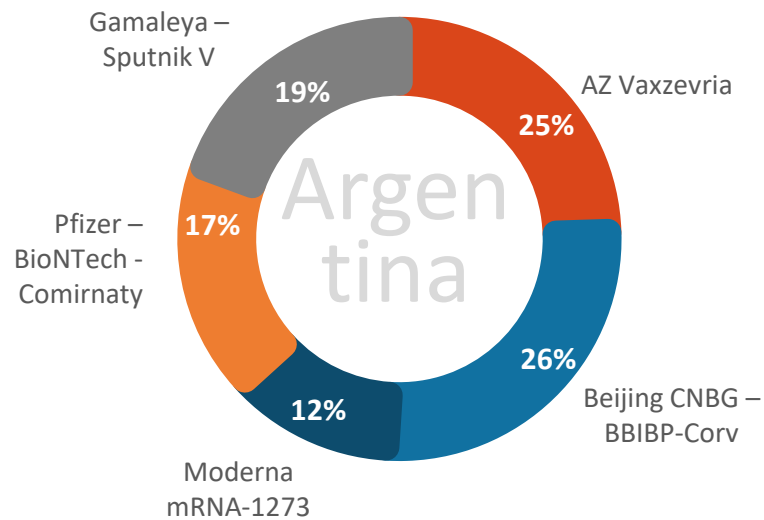

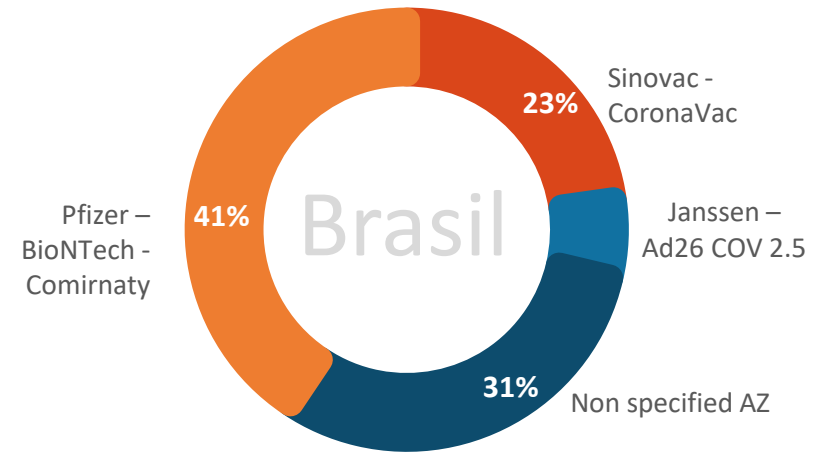

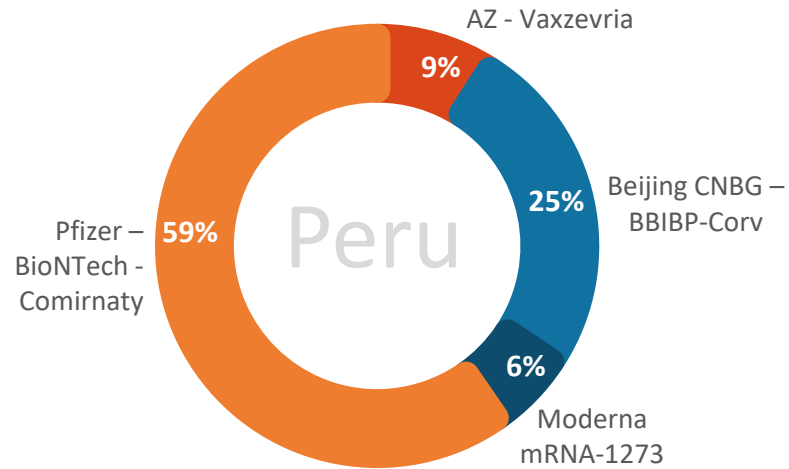

Covid-19 vaccination in Latin America

Covid-19 vaccine doses administered in the previous 6 months in selected Latin-American countries relative to their population

COVID-19 vaccine rollout in Brazil, 2022

COVID-19 vaccine doses per manufacturer

The Covid-19 epidemic in Brazil, 2022

9th

most unequal country¹

5th

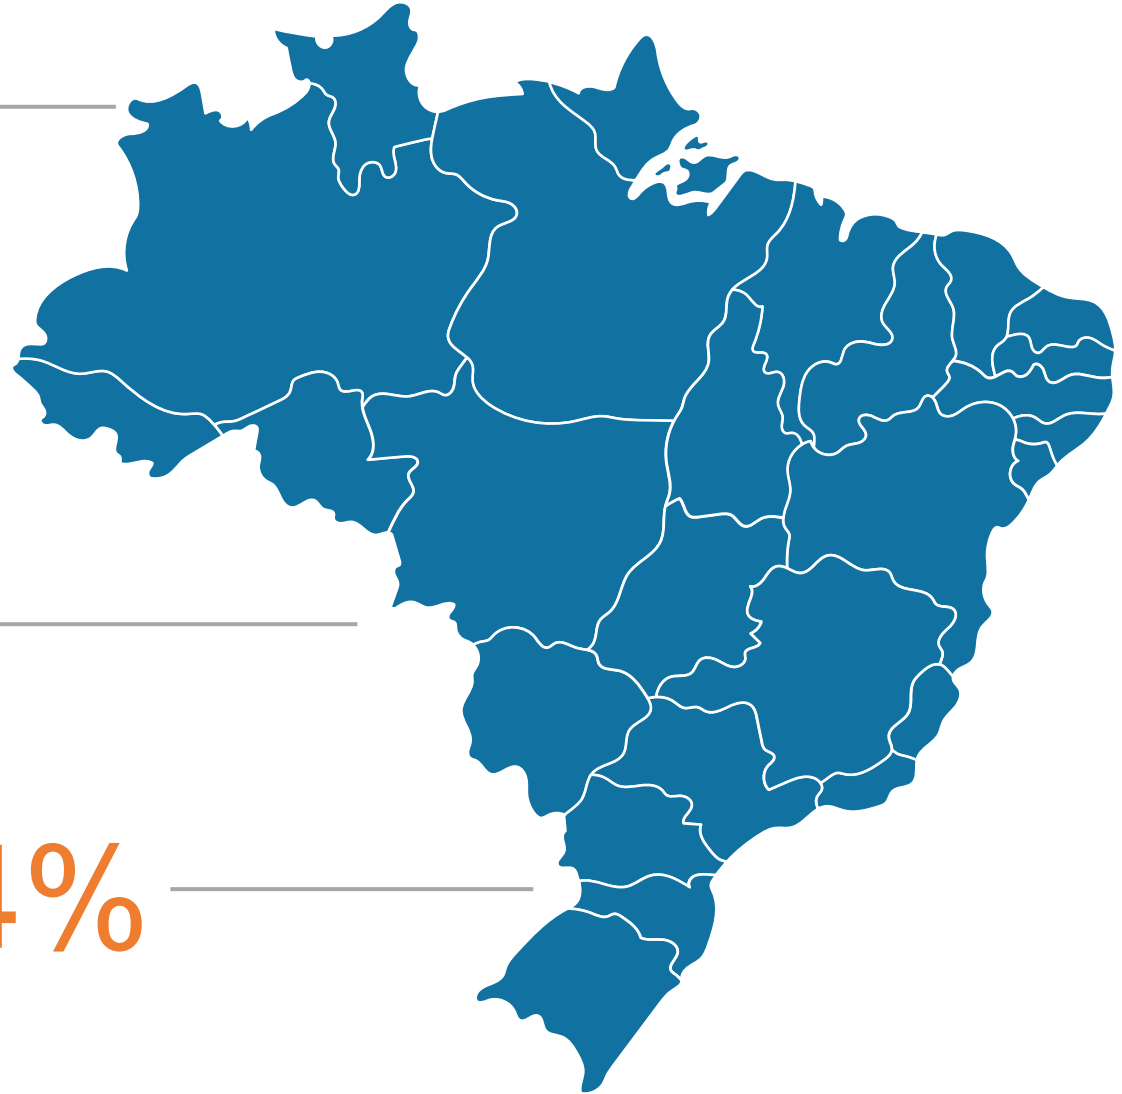

highest # of cases globally
(35,563,044)²

2nd

highest # of deaths globally
(690,739)²

5.5% & 10.4%

of worldwide Covid-19
cases and deaths
(2.7% of worldwide population)

The New York Times

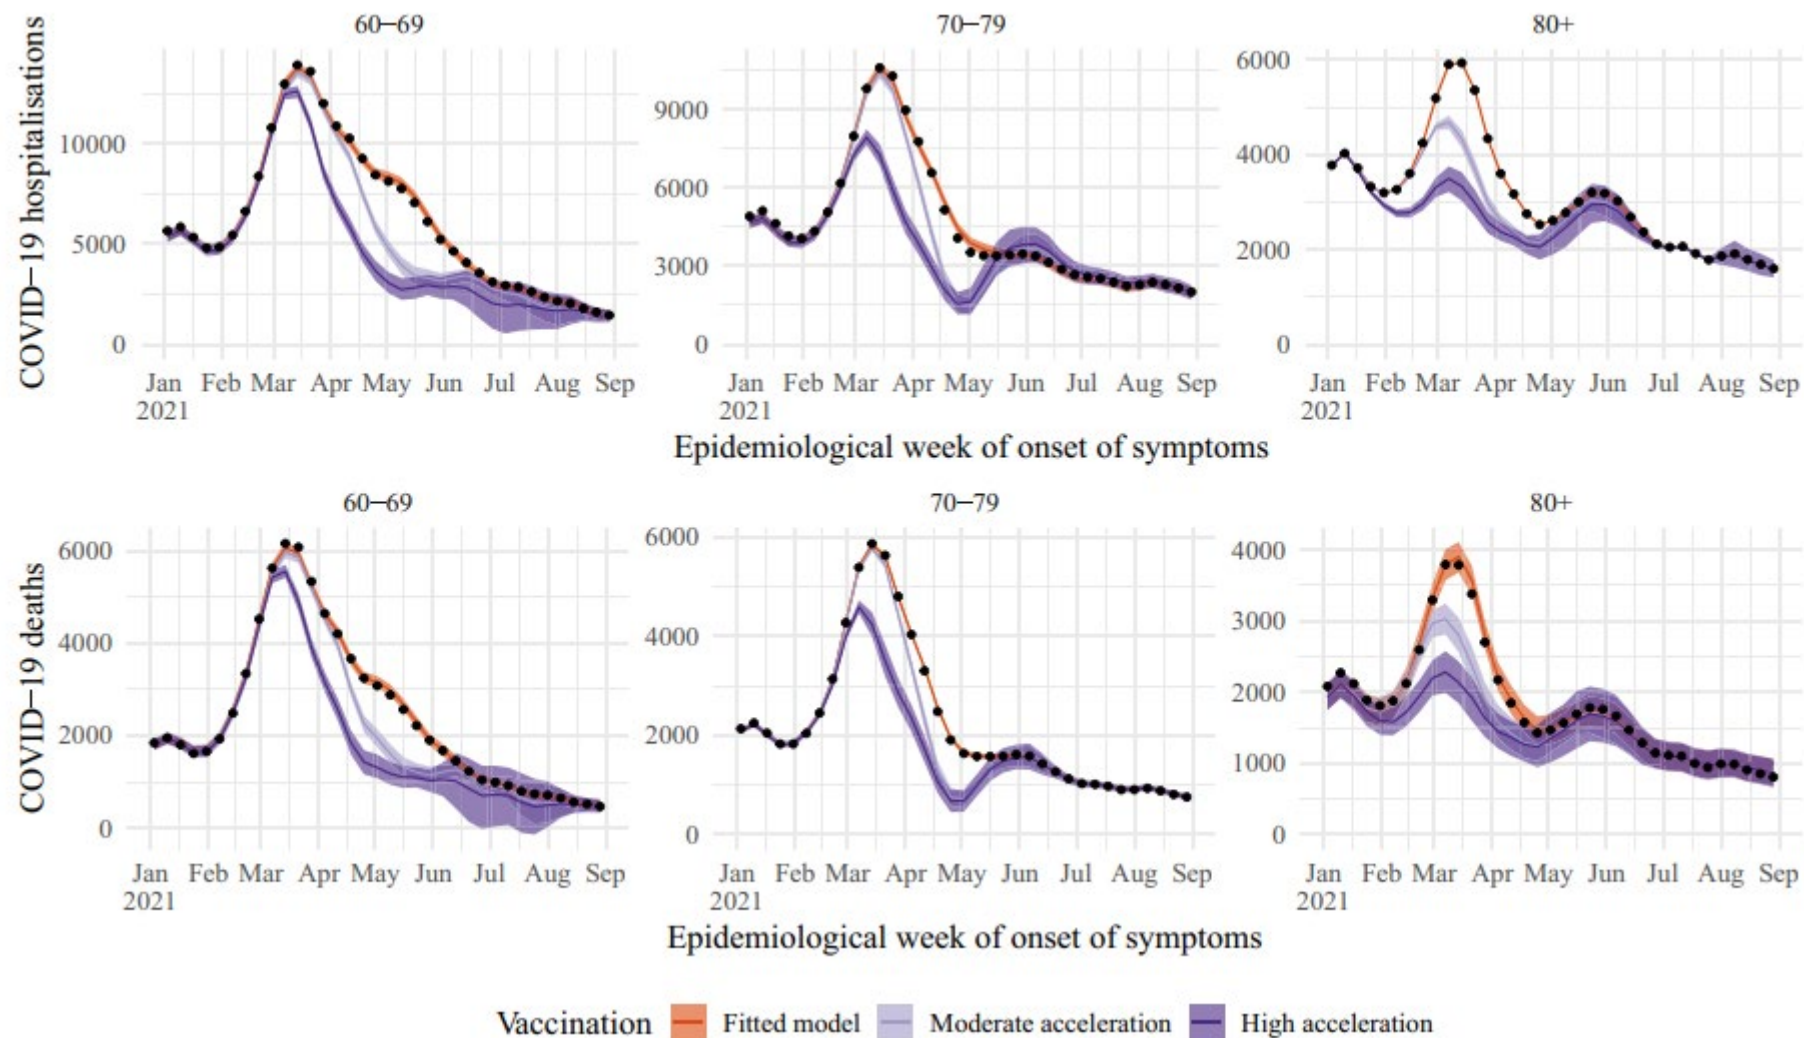

Brazil Is Brilliant at Vaccinations. So What Went Wrong This Time?

It's not hard to work out who to blame for the country's disastrous vaccine rollout.

Feb. 28, 2021

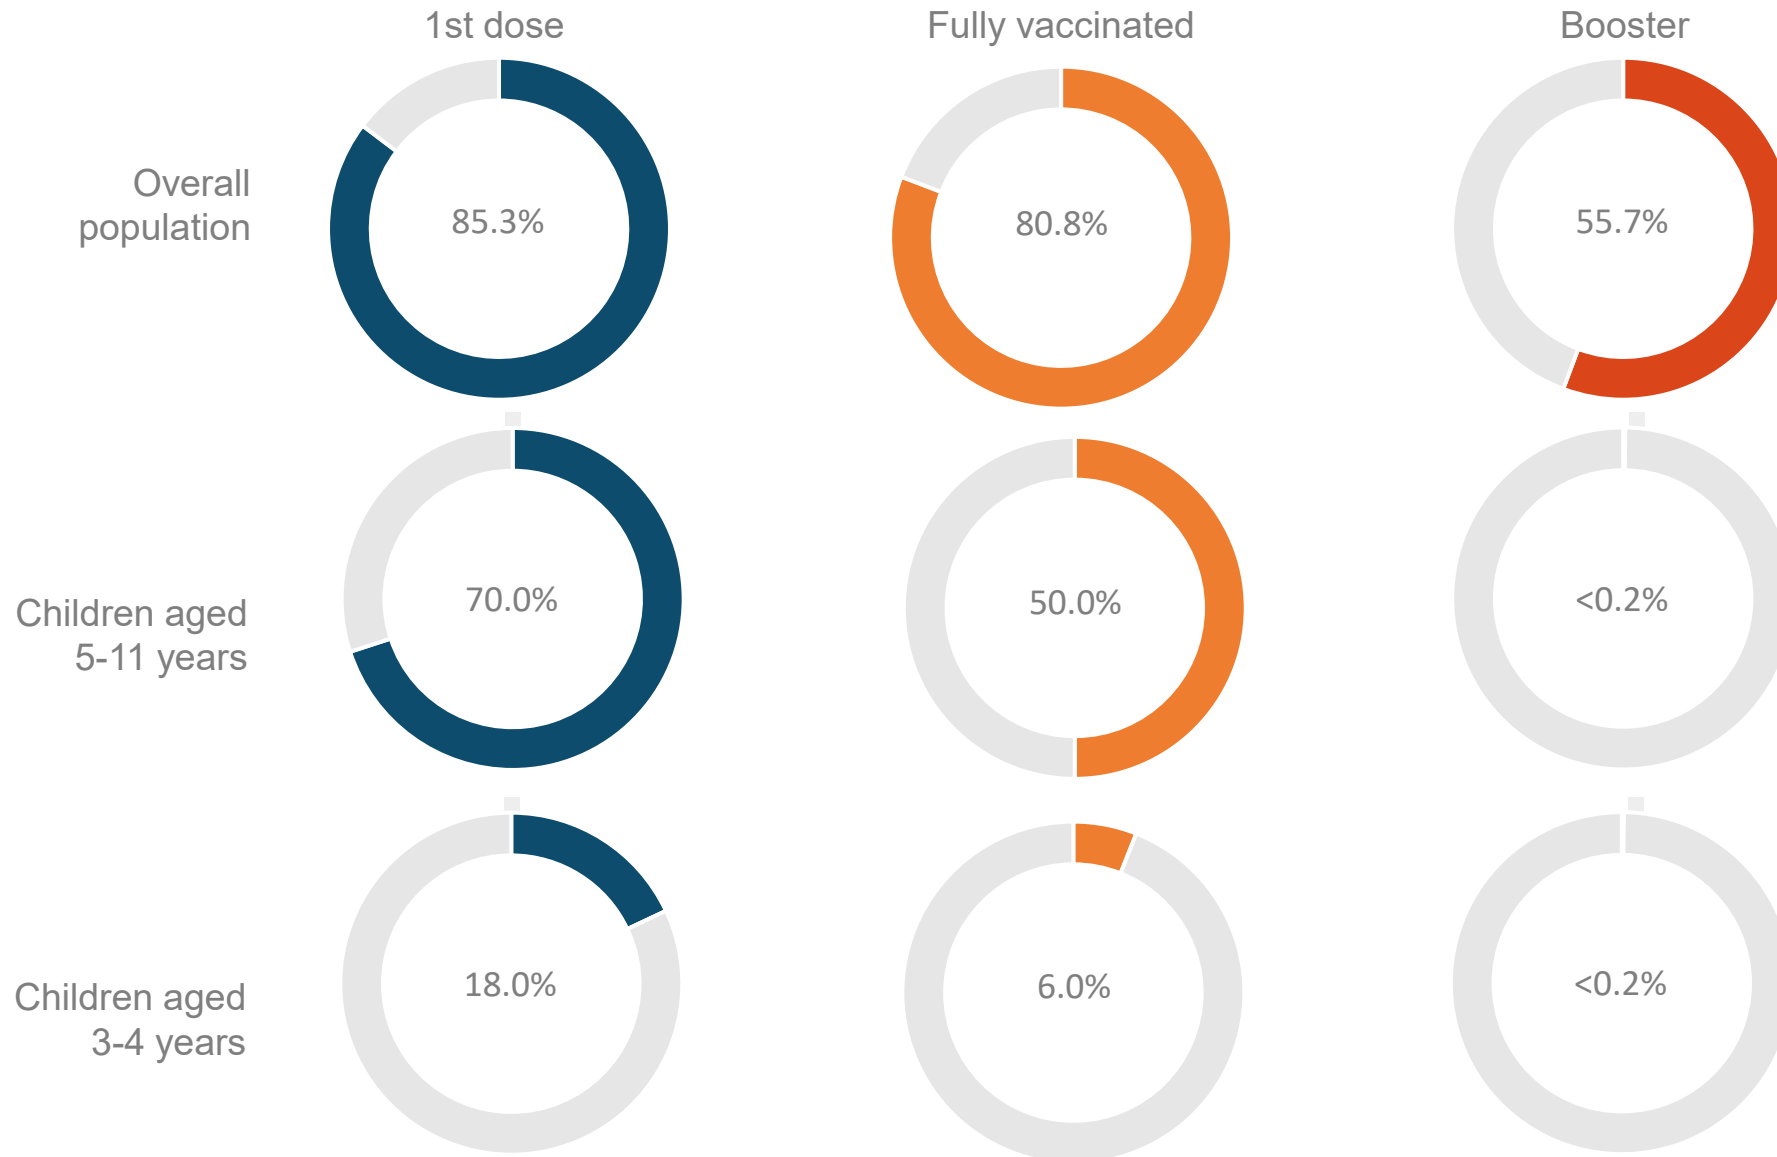

COVID-19 vaccination: the Brazilian case

Hospitalizations and deaths with the realized and faster vaccination roll-out by age group

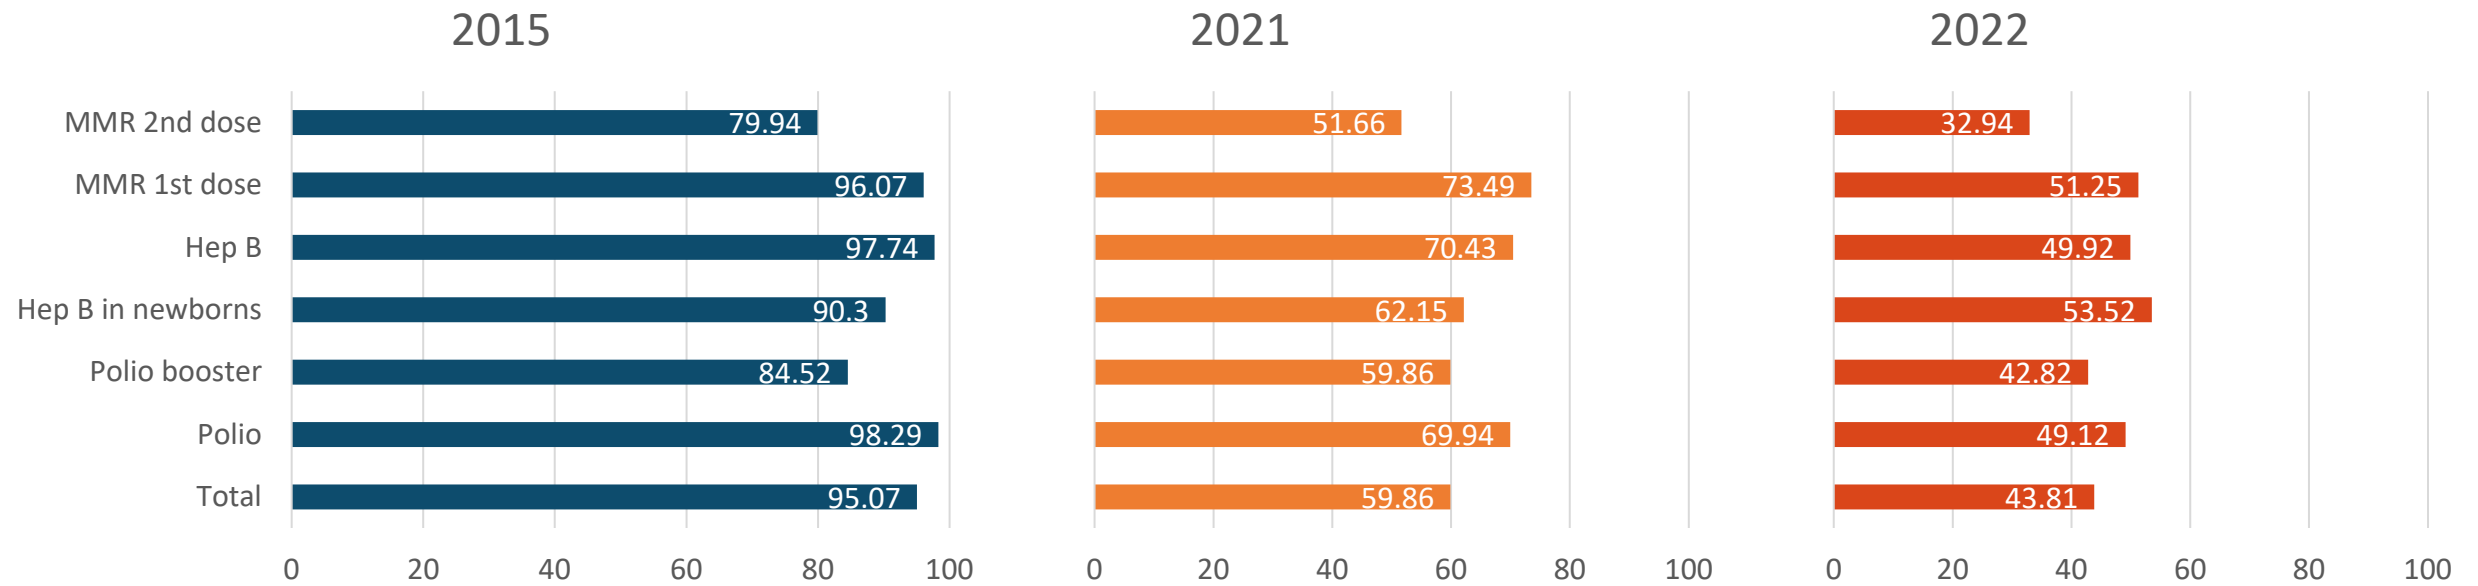

COVID-19 vaccination in Brazil, 2022

Up-to-date vaccine is a challenge in all age groups

Decreased vaccination coverage in Brazil

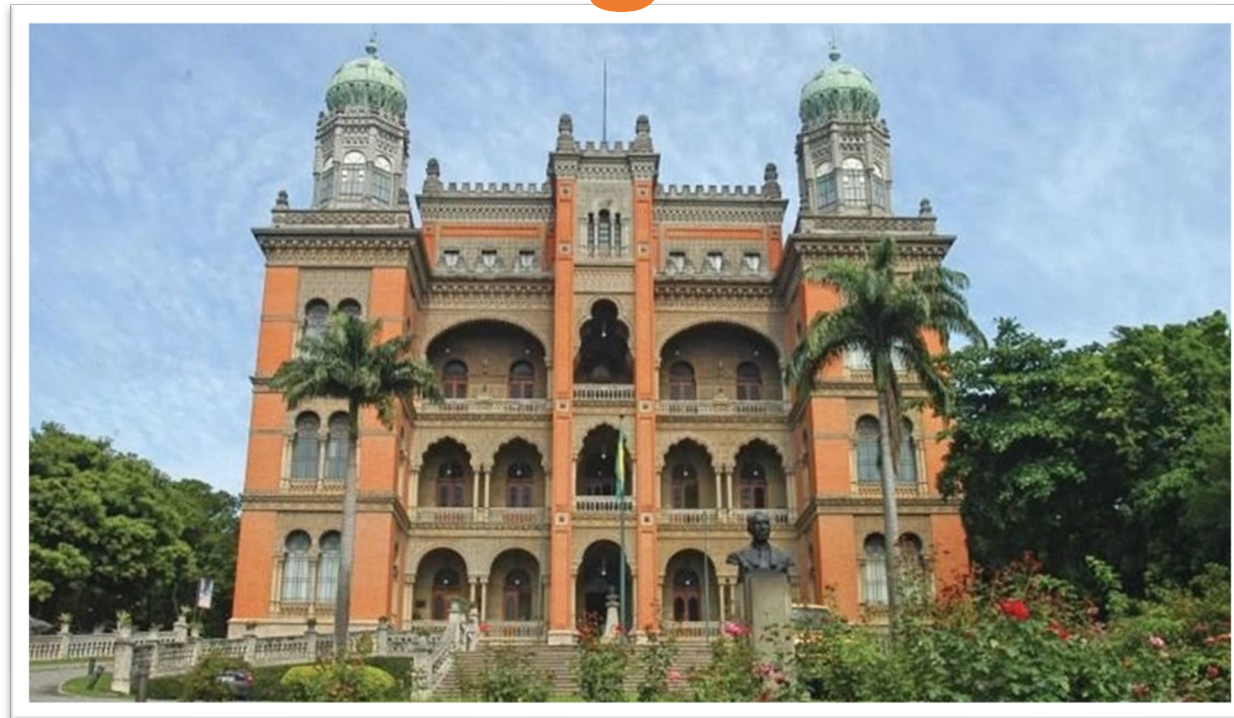

As COVID-19 continues to impact the Americas, dwindling vaccination rates leave countries susceptible to polio and other preventable diseases

Obrigada!
