

INTERNATIONAL WORKSHOP ON CLINICAL PHARMACOLOGY 2023

OF HIV, HEPATITIS AND OTHER ANTIVIRAL DRUGS

HYBRID WORKSHOP | 11 - 13 SEPTEMBER 2023 | ROME, ITALY

Welcome

It is our pleasure to announce that the **24th edition of the International Workshop on Clinical Pharmacology of HIV, Hepatitis, and Other Antiviral Drugs** will take place as a hybrid workshop from 11-13 September 2023 in Rome, Italy.

This interactive workshop gathers leading experts to discuss all aspects of the optimal use of antiviral therapy, including drug-drug interactions, pharmacokinetics of investigational and existing drugs, pharmacodynamics, drug dosing in underrepresented populations, post-marketing surveillance, and regulatory considerations.

Target Audience

- Clinical pharmacologists;
- Pharmacists;
- Clinicians / researchers;
- Industry representatives;
- Regulatory scientists;
- Government representatives;
- Post-graduate students; and
- Others involved in the clinical pharmacology of antiviral therapy.

Support

To organize this much-needed interactive platform, we rely on funding. Supporting this workshop provides you the opportunity to profile your organization within the respective community and show your commitment to advancing this field.

Program Chairs

Kimberly Scarsi, PharmD, MS, FCCP
University of Nebraska
Medical Center (UNMC),
United States

Alice Tseng, B.Sc.Pharm., PharmD, FCSHP, AAHIVP
University of Toronto,
Canada

Meeting Objectives

- Gather experts involved in clinical pharmacology from different disciplines in an interactive workshop setting;
- Provide a platform for presentation and discussion of the latest developments in the field;
- Share information on ongoing pharmacological studies;
- Translate new data to treatment guidelines; and
- Stimulate discussion and consensus on best practices.

2022 Facts and Figures

146 Attendees

79% HIV Care as Primary Focus

45% Pharmacologists/Pharmacists

50% Area of Expertise - Pharmacology

33 Countries

25 Lectures

1 Symposium

Enduring materials from the 2022 edition can be [viewed here](#).

37 Abstract Submissions

17 Poster Presentations

14 Oral Abstract Presentations

93% (strongly) agreed the lectures given in this meeting have increased their knowledge on treatment strategies for PLWHIV / PLWHep

92% of attendees indicated that they would be able to implement the gained knowledge

76% (strongly) agreed this program is beneficial for the clinical management of PLWHIV / PLWHep
