

INTERNATIONAL WORKSHOP ON HIV & AGING 2023

HYBRID MEETING | 26-27 OCTOBER 2023

Welcome

The **14th International Workshop on HIV & Aging** will be held from 26-27 October 2023 in the United States.

This workshop remains the only platform worldwide for international, cross-disciplinary scientific exchange on the increasingly recognized difficulties encountered in the clinical care and design of studies to improve the care of persons aging with HIV.

It gathers (basic) researchers, healthcare professionals across different disciplines, and community advocates to foster dialogue and prompt solutions that will benefit the aging population living with HIV. The workshop also creates opportunities for trainees and early-career investigators to present their research, network, and learn from experts in the field.

Support

To organize this much-needed interactive platforms, we rely on funding. Supporting this workshop provides you the opportunity to profile your organization within the respective community and show your commitment to advancing this field.

Meeting Objectives

- Facilitate an unbiased and scientific knowledge exchange regarding HIV and aging, and encourage early-career investigators to actively partake in the workshop;
- Summarize and promote the current state of the science regarding HIV and aging and its successful translation and dissemination;
- Identify future challenges and catalyze research and awareness.

Workshop Chairs

Kristine Erlandson, MD, MS

University of Colorado
Denver- Anschutz Medical
Campus, United States

Joseph Margolick, MD, PhD

Johns Hopkins Bloomberg
School of Public Health,
United States

David Moore, PhD

University of California,
San Diego, United States

Target Audience

- Internal Medicine Specialists (clinicians working in cardiovascular, renal, endocrine, and metabolic complications);
- Infectious Disease Specialists (virologists, immunologists, pharmacologists)
- Geriatricians;
- Neurologists;
- Epidemiologists;
- Geneticists and other clinical researchers;
- Community Advocates;
- Industry Representatives.

2022 Facts and Figures

182 Attendees online

85% Specialized in HIV Care

27 Countries

12 Lectures

1 Sponsored Symposium

10 Oral Abstract Presentations

75 Abstract Submissions

52 Poster Presentations

10 Lightning Posters

97% (strongly) agreed the lectures given in this program have increased their knowledge of HIV & Aging

97% scored (very) good on overall event experience

96% (strongly) agreed the content was relevant to their practice
