

INTERNATIONAL WORKSHOP ON HIV & PEDIATRICS 2023

BRISBANE, AUSTRALIA | 21 - 22 JULY

The **International Workshop on HIV & Pediatrics 2023** will take place in a hybrid format from 21-22 July in Brisbane, Australia. (see [HIV & Pediatrics 2023](#)).

This workshop is chaired by **Dr. Elaine Abrams** and **Dr. Lynne Mofenson**. The chairs are complemented by two local chairs: **Prof. Claire Nourse** and **Dr. Adam Bartlett**.

About HIV & Pediatrics

The HIV & Pediatrics workshop is the only international workshop entirely devoted to research in prevention and treatment of HIV-1 in infants, children, and adolescents - making it the premier forum for the world's leading researchers.

The 2-day program includes oral abstract and poster presentations, state-of-the-art lectures, and more informal, exciting and interactive fora - including case presentations, debates, and panel discussions.

The workshop brings together a range of disciplines to share experience across the critical content areas - including HIV care and treatment, drug development, prevention of vertical transmission, coinfections and co-morbidities, pediatric cure research, implementation science, and mental health challenges.

Support

To organize this much-needed interactive platform, we rely on funding. Supporting this workshop provides you the opportunity to profile your organization within the respective community and show your commitment to advancing the field of HIV in Pediatrics.
